

C&T DIVISION

1. BASES

Trade Name	INCI Name	Applications
Base O/W 097	Ceteareth 25, PEG-2 Stearate, Paraffinum Liquidum, Hydrogenated Coconut Oil, Cetyl Alcohol, Sodium Stearate	Self emulsifying and emollient base
IMEX 1000NI	Cetearyl Alcohol, Ceteareth-24	Self emulsifying base for O/W system, especially suitable for hair perming cream
Silamer HC	Triethylhexanoin, Cetyl PEG/PPG-10/1 Dimethicone, Polyglyceryl-4 Isostearate, Hexyl Laurate	Easy to use for quick and stable formulation of W/O or W/Silicone cosmetic emulsions

2. BOTANICALS

Essential Oils	Various essential oils from plant	Essential oils for cosmetics & toiletries application
Functional Ingredients	Active Ingredients from plant	Functional ingredients for skin & haircare application
Plant Extracts	Plant extract containing hydrosoluble active molecules	Plant extracts for skin and haircare application

3. CONDITIONING AGENTS

ARMO CARE	Guar Hydroxypropyltrimonium Chloride	Cationic conditioning agent in haircare application
CELQUAT SC	Polyquaternium-10	Cationic conditioning agent in haircare application

4. DYES/LAKES/PEARLS/PIGMENTS

Arianor	Cationic Dyes	For semi-permanent/ temporary hair dye application
Covapate	Pigments pre-dispersed in castor oil	Lipstick, lipgloss, oily gel & foundation
Covapearl AS	Treated pearl pigments	Skincare, lipstick, lipgloss, make-up, nail varnish, soap, tooth paste & hair product
D&C / FD&C dyes	water soluble & oil soluble dyes	For cosmetic application

C&T DIVISION

Trade Name	INCI Name	Applications
Covariane	Nitrodyes	For semi-permanent hair dye application
Natpure Xfine	Natural dyes	Anhydrous cosmetic products
Unicert	Water/Oil Soluble Dyes	Widely used for cosmetics & toiletries application
Unipure	Pigments	Widely used for cosmetics application

5. ESTERS

IMEX 2EHP	Ethylhexyl Palmitate	Good solubilizing properties for active ingredients. Highly recommended for sunscreen and hair grooming products.
IMEX 2EHS	Ethylhexyl Stearate	Good solubilizing properties for active ingredients. Recommended for skincare and as binder in pressed powder make up.
IMEX AB1215	C12-C15 Alkyl Benzoate	Used to reduce the oily skin feel of other oil phase ingredients. Provide excellent solvency for chemical sunscreens. Wetting agent for physical sunscreens.
IMEX CCM	Coco Glycerides	Act as nourishing, conditioning, cleansing and hair treatment agents. Suitable for repairing dry hair and skincare.
IMEX COCO C8	Coco-Caprylate/Caprate	Fast spreading emollient for personal care application. Specially designed as an alternative to volatile silicones like cyclomethicones.
IMEX CP 24216	Cetyl Palmitate	Used as consistency regulator for cosmetic and pharmaceutical emulsions such as creams, lotions, ointments, etc.
IMEX CSIO	Cetearyl Ethylhexanoate	Water repellent and good spreading properties. Recommended for sunscreen lotions and lipsticks.
IMEX EGDS	Glycol Distearate	Used as a pearling as well as an opacifying and emulsifying agent in shampoos, cosmetics, creams and ointments.
IMEX EGMS	Glycol Stearate	An effective anionic, O/W emulsifier that is suitable for use in creams and lotions. Also used as an opacifier and pearler for the preparation of shampoos, hand soap, and foam bath products.
IMEX GMS 50 SE	Glyceryl Stearate SE	As an emulsifier for O/W emulsion and viscosity modifier for a variety of cosmetics emulsion preparations such as creams and lotions.
IMEX ININ 1449	Isononyl Isononanoate	Solubilizer/emollient compatible with silicone oil formulation. Leaves a non greasy feel in skincare product.
IMEX IPM 98	Isopropyl Myristate	Improves spreadability of emulsion. Good solubilizer for lipophilic active ingredient, UV filters and pigments. Recommended for anti-perspirant and shaving lotion.
IMEX IPP 90	Isopropyl Palmitate	Emollient with very good spreading properties and high refatting characteristic. Good solubilizer for oil soluble active ingredients. Recommended for lotions and hair conditioners.

Trade Name	INCI Name	Applications
IMEX MCT	Caprylic Capric Triglyceride	Universal emollient with good skincare properties. Recommended for bath oils, sunscreen and facial masks.
IMEX PEG-7 GC	PEG-7 Glyceryl Cocoate	Act as a hydrophilic emollient and suitable for mild shampoos, shower and bath preparations.

6. Fatty Alcohols

IMEX Fatty Alcohol C16	Cetyl Alcohol	Emulsion stabilizer, opacifying agent, emollient and thickening agent for shampoos, creams and lotions application.
IMEX Fatty Alcohol C1618	Cetearyl Alcohol	Emulsion stabilizer, opacifying agent, emollient, foam boosting surfactant and thickening agent. Commonly used in hair conditioners and other hair products.
IMEX Fatty Alcohol C18	Stearyl Alcohol	Emollient, emulsifier, and thickener in ointments of various sorts, and is widely used as a hair coating in shampoos and hair conditioners.

7. Fatty Acids/ Glycerine

IMEX Glycerine	Glycerin	Humectant, vehicle and solubilizer/ emollient for cosmetics & toiletries application.
IMEX Lauric Acid	Lauric Acid	Used in raw material for emulsifiers, cosmetics & toiletries soaps & detergents anionic and nonionic surfactants.
IMEX Myristic Acid	Myristic Acid	Used in raw material for emulsifiers, opacifying agent, cosmetics & toiletries soaps & detergents anionic and nonionic surfactants.
Imex Oleic Acid	Oleic Acid	Used in raw material for emulsifiers, cosmetics & toiletries soaps & detergents anionic and nonionic surfactants.
IMEX Palmitic Acid	Palmitic Acid	Used in raw material for emulsifiers, opacifying agent, cosmetics & toiletries soaps & detergents anionic and nonionic surfactants.
IMEX Stearic Acid	Stearic Acid	Used in raw material for emulsifiers, cosmetics & toiletries soaps & detergents anionic and nonionic surfactants.

8. Peptides/ Actives

Aquaxtrem	Propanediol, Water, Rheum Rhaponticum Root Extract	Moisturizing
Neclair Pro	Acetyl Tetrapeptide-2	inspired in the powerful cosmetic benefits of green tea such as antioxidant, brightening and antiaging

C&T DIVISION

Trade Name	INCI Name	Applications
Lingostem	Water, Glycerin, Vaccinium Vitis-Idaea Fruit Extract, Xanthan Gum	Photoaging
Arctalis	Pseudoalteromonas ferment extract	wrinkle smoothing, hydration & natural glow, digital antiaging
Scelleye	Oligopeptide-2	detoxifying eye contour
Pauseile	Bacillus Ferment	Skin radiance & tonicity, hydration boosting
Melavoid	Propanediol, Water, Boerhavia Diffusa Root Extract	Natural lightening agent
Natural Alpha Bisabolol	Bisabolol	Anti-irritant , Sensitive skin
Epitensive	Oligopeptide-1	Intensive antiaging Plant-EFG
Orchistem	Calanthe Discolor Extract	lifting & firming, skin radiance
Sirtalice	Bacillus Ferment	Instant lifting & v-shape effect
Detoskin	Fisetin, Raspberry Ketone	Detoxifies & rejuvenate

9. Perfumes

Perfume Oils	Parfum	Up-to-date fragrances for various product applications
--------------	--------	--

10. Preservatives

Preserve LP	Methylchloroisothiazolinone, Methylisothiazolinone	Broad spectrum preservative system
-------------	--	------------------------------------

11. Proteins

Trade Name	INCI Name	Applications
Collagen	Collagen	Anti-aging, anti-wrinkle, moisturizing & haircare
Elastin	Elastin	Refirming products
Extensin	Daucus Carota	Anti-aging, anti-wrinkle, moisturizing & haircare
Hydrolyzed Pea	Hydrolyzed Pea	Antistatic, emollient, hair conditioning & skin conditioning
Hydrolyzed Silk	Hydrolyzed Silk	Anti-aging, hair conditioning, moisturizing & film forming
Hydrolyzed Soy	Hydrolyzed Soy	Antistatic, hair conditioning, humectant & skin conditioning
Hydrolyzed Wheat Gluten	Hydrolyzed Wheat Gluten	Anti-aging, hair conditioning, moisturizing & film forming
Keratin	Keratin	Hair repairing & conditioning/ Skin conditioning, moisturizing & smoothing
Milk Hydrolysate	Hydrolyzed Milk	Anti-irritant, skin and hair conditioning, moisturizing & repairing

12. Special Blends

Covasterol	Glyceryl Isostearate, Isostearyl alcohol, Brassica Campestris (Rapeseed) Sterols, Butyrospermum Parkii Butter Extract [Butyrospermum Parkii (Shea) Butter Extract], Candelilla Cera [Euphorbia Cerifera (Candelilla) Wax]	express sebum reduction and pore refining
Drenalip	Propanediol, Water, Ruscus Aculeatus Extract, Citrus Medica Limonum (Lemon) Peel Extract, Virdaurea (Goldenrod) Extract, Astragalus Membranaceus Root Extract	Anti-Cellulite
Hydrofacteur LC	Urea, Sorbitol, Lactic Acid, Triticum vulgare, Glycerin, Allantoin, Phenoxyethanol, Propylparaben, Methylparaben	NMF derivative + AHA
Lipofacteur Vitentiel	Rosa canina, Tocopheryl Acetate, Retinyl Palmitate, Paraffinum Liquidum, Ascorbyl Palmitate	Vitamins and essential fatty acids, cell adhesion promoter
Lipofirm LCW	Bioflavonoids, Algae, PEG/PPG-18/18, Dimethicone, Centella Asiatica, Carnitine, Caffeine, TEA Salicylate, D-Panthenol	Slimming agent
Trikenol	Manuka concentrate, Willow Extract, Salicylic compounds	Natural Anti-dandruff / Anti-acne agent

C&T DIVISION

Trade Name	INCI Name	Applications
Vegetens OR	Triticum vulgare, Chondrus crispus, Mannitol, Dextrin, Dextran	Vegetal skin tensor

13. Solubiliser/ Microemulsifier/ Emulsifier

IMEX CS 25	Cetareth-25	Non-ionic surfactants and emulsifiers for soaps and cosmetics application.
IMEX PEG-40 HCO	PEG-40 Hydrogenated Castor Oil	Emulsifier, surfactant, foam booster and solubilizer of extracts, perfumes and vitamins.
Flocare series	Anionic & cationic emulsifiers	Cold process emulsifiers
Natpure Sol Crystal	Caprylyl/Capryl Glucoside, Aqua, Diisopropyl Adipate, Triethyl Citrate	solubilizer for natural cosmetics & fragrances
Solubilisant LRI	PPG-26-Buteth-26, PEG-40 Hydrogenated Castor Oil	Unique surfactant blend to enable water as a substitute for alcohol in cosmetic products. Less emulsifier required to form stable micro-emulsion in water with perfumes, essential oils and vitamins.

14. Sunscreen

Covabsorb	Ethyl Hexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Ethyl Hexyl Salicylate	Organic UV filters. Protect fragrance and dyes against UV fading.
Covascreen TI	Titanium Dioxide, Hydrogenated Polyisobutene, Trimethoxycaprylylsilane, Zinc Oxide, Hydrogenated Polyisobutene	Advanced dispersions of stabilized mineral sunscreens. Enhanced SPF values and excellent resistance to water.
Covascreen Zn	Polyisobutene, Trimethoxycaprylylsilane, Hydrogenated Castor Oil	Advanced dispersions of stabilized mineral sunscreens. Superior UVA protection and excellent resistance to water.
Suncat DE	Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Benzophenone-3, Phospholipids, Butylene Glycol, Phenoxyethanol	Perfect full-spectrum protection with a stable and easy to use dispersion. Suitable for skin and haircare application.
Suncat MTA	Aqua, Ethylhexyl Methoxycinnamate, Butyl Methoxydibenzoylmethane, Octocrylene, Phospholipids, Butylene Glycol, Phenoxyethanol	Perfect full-spectrum protection with a stable and easy to use dispersion. Suitable for skin and haircare application.

15. Surfactants

Trade Name	INCI Name	Applications
IMEX CDE	Cocamide DEA	Foam booster, stabilizer & viscosity enhancer in rinse off products.
IMEX NLS 30	Sodium Lauroyl Sarcosinate	Ionic surfactant that used as a foaming, cleansing and hair conditioning agent in most of the personal care products.
IMEX SB 30	Cocamidopropyl Betaine	Mild amphoteric surfactant that used as antistatic, viscosity enhancer, foam enhancer and cleansing agent in most of the personal care formulations.
IMEX SLG	Sodium Lauroyl Glutamate	Mild surfactant that used as a foaming, cleansing and hair conditioning agent in most of the personal care products.
IMEX SLES 70N	Sodium Lauryl Ether Sulphate	Primary surfactant for detergents & personal hygiene products.

16. Texturing Agents/ Optical Modifiers

Trade Name	INCI Name	Applications
Covabead PMMA	Polymethyl Methacrylate	Plain spherical ultrafine beads
Covabead LH 85	Methylmethacrylate Crosspolymer	Hollow spherical ultrafine beads
Covacryl A15	Acrylates Crosspolymer	Water proof film former
Covacryl E14	Acrylates Crosspolymer	Water proof film former
Covacryl RH & Covacryl MV 60	Sodium Polyacrylate	Unique hydrophilic rheology modifiers
Covasilic 15	Silica Dimethyl Silylate	Thixotropic agent for oil
CM111	Magnesium Silicate	Spherical diffusing beads
Sensibead SI 175	Silica	Porous spherical ultra fine particles of silica
Covamat	Mica, Talc, Titanium Dioxide, Lauroyl Lysine	Natural Matte look
Matlake OPA	Titanium Dioxide, Alumina	Matte look, no coverage
